Dear Office of the Secretary,

I am in the 5th grade at Belknap Elementary School in Beaver, Utah. I am writing to you because I am doing a history fair project about Nuclear Waste. While I was researching all about it, I learned about Energy-Solutions plans to import 20,000 tons of nuclear Waste from Italy! Please do not let them do this! I dont want the United States to become a dumping ground :(I ♥ love Utah and America too much to have more Nuclear Waste, especially from another Country!

Please reject the request from EnergySolutions to allow them to transport waste from Italy. Thanks.

Sincerely,
Casey Kinross
