---

Carmelo,

I have been assigned this action for review. It appears that Dr. Zhang and Mr. Sharp are all set to work using the Varian device. Before we can process the entire amendment and add the other 4 physicists, we need to have confirmation from management that the 4 medical physicists have training in the use of the Varian device. Specifically, they need instruction and training on hands-on device operation, safety procedures, clinical use and the operation of the treatment planning system utilized at CCCUPR.

This training must be performed and documented either by the vendor or another authorized medical physicist, BEFORE they begin work at CCCUPR.

Please submit a letter confirming the above and signed by management as soon as possible.

Let me know if you have any questions.

Shawn

Hi Shawn Seeley:
This is the confirmation of the amendment that we received from the NRC to add the new authorized physicist to our license. The current physicist
Finishes his activities tomorrow. We are need of approval as soon as possible of this amendment or provisional approval to continue providing
The brachytherapy HDR service.

Thank, you.

Carmelo
