RE: Import Licenses Nuclear Waste
ATTN: Rulemaking and Adjudications

Dear Secretary + Commission

I am writing to express my outrage about the plans of a Utah-based company to import Italian nuclear waste, process it in Tennessee and dispose of it in Utah. I do not want to see the United States become the world's nuclear waste dump.

As a Tennessean I oppose this radioactive waste be brought to the United States much less Tennessee. If Europe is so advanced and proud of atomic power then they can find a way to keep their nuclear waste in their own countries.

I adamantly oppose bringing Europe's radioactive problems here.

Please do not let this happen.
