ADJUDICATIONS STAFF

Secretary
U.S. Nuclear Regulatory Commission
Washington, D.C 20555-0001
Attn: Rulemaking and Adjudication Staff

To Whom it may concern:

I am a 67 year old grandmother who is quite upset that we here in Utah are becoming a dump site of Nuclear Waste.

I feel this dump is a burden for Utah and a necessary evil for the nation.

We do not need the waste that is generated in other states, let alone other countries. If they own the power to make it, let them dispose of it where it is produced.

Please add my name to those opposed to this idea. I love my grandchildren and want to keep it nice for them to grow up in.

My family all vehemently oppose this. Thank you in advance for your help in this matter.

Sincerely,
Barbara Munson
