Assessment follow-up letters are issued approximately eight weeks after the conclusion of the first, second, and third quarters and on an as-needed basis for those plants having changes in an assessment status since the previous annual assessment letter.

Assessment follow-up letters, if applicable, are located at the 20YYq1, 20YYq2 (2017 and later), and 20YYq3 hyperlinks. The 20YYq2 links starting in 2017 will display updated licensee inspection plans.

Annual assessment letters are located at the 20YYq4 hyperlinks. If a 20YYq4 link displays this form, the applicable assessment letter has not yet been issued.
