UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION I
475 ALLENDALE ROAD
KING OF PRUSSIA, PENNSYLVANIA 19406-1415

April 9, 2008

Docket No. 03034453 License No. 29-30392-01

Peter C. Bousum, V.M.D.
Mid-Atlantic Equine Medical Center
P. O. Box 188
40 Frontage Road
Ringoes, NJ 08551

SUBJECT: FACILITY TOUR ON MARCH 7, 2008

Dear Dr. Bousum:

Thank you for arranging the tour of the Mid-Atlantic Equine Medical Center on March 7 for Charles Miller, Director of NRC's Office of Federal and State Materials and Environmental Management Programs (FSME). As FSME Director, Dr. Miller is responsible for developing, implementing and overseeing the regulatory framework for industrial, commercial, and medical uses of byproduct, source, and special nuclear materials. Your Veterinary Technologist, Cheryl Smith, provided an excellent overview of facility operations and thoroughly described techniques and applications used in your veterinary practice that Dr. Miller had previously seen used only in humans. The tour of your facility provided Dr. Miller with a good perspective on the current state of veterinary medicine.

Thank you again for your cooperation.

Sincerely,

Original signed by John D. Kinneman

Brian Holian, Director
Division of Nuclear Materials Safety
