DOCKET NO. 11005711

April 2, 2008

1049

Murfreesboro, Tennessee 37129
3271 Park Hill Road

Nuclear Regulatory Commission:

I am totally against the importation of foreign generated nuclear waste. Why would our elected officials allow or consider such a thing to happen to the citizens of the United States — to import such radioactive waste or any waste to be dumped on us.
Why should this become our responsibility and health issues — money ??
I agree with Representative Bart Gordon (H.R. 5632) to ban the foreign-generated nuclear waste importation; not just now; but forever.

Sincerely,
Robbie Sue Little
