Regulatory Commission
Washington, D.C. 20555

attn: Rulemaking and adjudications
Ref: Energy Solutions Import License
application IW023

I understand from my Congressman, Bart Gordon, that there is a possibility the United States could become the world's nuclear Dumping Ground. We have a limited amount of space for nuclear waste. This could cause our ports & highways to be jammed & leave us with other countries waste & the responsibility to monitor it for hundreds of years and we may need the space for our own waste.

Please do not let the United States become the Dumping Ground for the world's nuclear waste.

Thank you, Sincerely,

Mrs. Zella Beck
Murfreesboro, TN
