Subject: Information to Fulfill Confirmatory Order, Section V, Paragraph 3.c

Dear Sir:

As required by Reference 2 above, Nuclear Fuel Services, Inc. (NFS) has submitted by a separate cover letter (Reference 4) the third party contractor's report documenting its findings and assessment of the safety culture at NFS and the NFS plan and schedule for implementing the recommendations from the assessment. The original due date for providing this information was modified in Reference 3.

An additional report on the nuclear material security program and its relationship to the overall safety culture work environment at NFS is enclosed and is being submitted separately due to the classified contents. Upon request by NRC, NFS will also make available the supporting documentation and data compiled by and/or relied upon by the third party contractor in making this assessment.
