Nuclear Regulatory Commission
Attn.: Scott Newberry
Watts Bar E/S
Washington, D.C. 20005

Dear Mr. Newberry,

I am writing to ask you to urge the Nuclear Regulatory Commission to not license the Watts Bar nuclear plant in Spring City, Tennessee.

This plant is unsafe and is a serious threat to the environment according to previous N.R.C. investigations and remains to be at present.

Thankyou for your attention.

Sincerely,

A. Bergenfeld
