Subject: KI Use at Calvert Cliffs - Scoping Comment

Mary Ann,

FYI - At the Calvert Cliffs scoping meeting (Mar. 19, 2008), Kevin Kamps asserted that problems exist with the potassium iodide distribution program in Calvert Cliffs. The staff will send a letter to FEMA requesting information on whether the Maryland KI program meets established expectations. A response by July 31 will be requested.

When you bin the comments, you may want to put in a placeholder to flag the expected response from FEMA.

Tom F.
