Re: Energy Solutions Import
License application IW023

Gentlemen:
I am adamantly opposed to the importation of tons (or any amount) of Radioactive Waste from Italy (or any other Country) being processed + buried in the Utah disposal site.
In fact, I am opposed to any Importation of Radioactive Waste. Why can't each Country take care of its own Waste - Our Country is generous but this goes too far. Please vote to deny this problem on Americans?
