Subject: RAP Info

Mike,

for our meeting on May, 19, I wanted to provide status of informal comments received from NRC on the 3-4-08 Final RAP. Attached are the following:

1. Table of NRC comments and status of responses

2. Revised language for RAS Section 7.0 and 7.1 (See Comment 3 on Table 1)

3. Revised Calculations C-10 - C-13 and C-15 (See Comment 4 on Table 1)

4. Summary of changes made to Calculations C-10 - C-13 and C-15. Note - NRC had requested changes due to final cover thickness at 9' feet versus 10' used in previous calculations. In addition to the cover thickness, some other changes were made to reflect the current cell/tailings geometry. The summary provides all changes made from the 3-4-08 submittal.
