**NRC OPENS PUBLIC DOCUMENT ROOM IN NEW MEXICO
FOR CROWNPOINT URANIUM SOLUTION MINING PROJECT**

The Nuclear Regulatory Commission has established a local public document room in Crownpoint, New Mexico, for the Crownpoint Uranium Solution Mining Project of Hydro Resources, Inc.

The document room is located at the Dine College Library. Operating hours of the library are 8:00 a.m. to 9:00 p.m. Monday through Thursday, and 8:00 a.m. to 5:00 p.m. on Friday. Patrons should call ahead to confirm weekend hours. The telephone number is 505/786-6223.

Members of the public may review and copy documents at the library related to the Crownpoint Project.

The NRC issued a license to Hydro Resources in January to construct and operate the project. It will involve the extraction of uranium at three sites, located near the towns of Church Rock and Crownpoint, in McKinley County northeast of Gallup.
