DUKE ENGINEERING & SERVICES TO BRIEF NRC STAFF ON REGION I WORK

Representatives of Duke Engineering & Services will brief Nuclear Regulatory Commission Region I staff on Thursday, July 9, regarding work the firm is performing in the region. NRC Region I encompasses the Northeastern United States.

The meeting will begin at 1:30 p.m. in the Executive Conference Room at the Region I office in King of Prussia, Pa. It will be open to the public for observation.

Last year, Duke Engineering & Services acquired the Nuclear Services Division of the Bolton, Mass.-based Yankee Atomic Electric Company. As a result of that deal, Duke provides engineering services to a number of nuclear power plants previously served by Yankee Atomic's Nuclear Services Division, including the Vermont Yankee facility in Vernon, Vt., and the permanently shutdown Yankee Rowe facility in Rowe, Mass.

Duke Engineering & Services is a subsidiary of Duke Energy Corp., a global energy company headquartered in Charlotte, N.C.
