Subject: Calvert Cliffs Application for Additional Nuclear Unit

Dear Ms. Anderson,

John Price of Unistar referred me to you. Unistar submitted a combined operating license (COL) application to the US NRC to build and operate a third nuclear unit at their Calvert Cliffs site in MD.

The NRC plans to audit the environmental information presented by Unistar in its COL application during Mar. 17 - 21, 2008. The audit will take place at the plant site. If you would like information about the site audit, or would like to observe it, please contact me.

Thanks,

Thomas L. Fredrichs
