No. 97-162  
RELEASE

FOR IMMEDIATE

1997)

(Wednesday, October 29,

NOTE TO EDITORS:

A subcommittee meeting of the Nuclear Regulatory Commission's Advisory Committee on Reactor Safeguards (ACRS), scheduled to be held November 13-14, has been reset to start one day earlier.

The meeting, which will be open to public observation, will begin at 8:30 a.m. each day in Room T-2B3 of the NRC's Two White Flint North Building at 11545 Rockville Pike, Rockville, Maryland. The Subcommittee on Reliability and Probabilistic Risk Assessment will continue its review of matters related to the Staff Requirements Memo dated May 27, regarding the use of uncertainty versus point values in the PRA-related regulatory decision-making process. The subcommittee also will discuss policy issues related to performance-based regulation, including industry initiatives in this area.

Other aspects of the meeting, including an opportunity for public comment, will be described in a Notice of Meeting published in a forthcoming edition of the Federal Register.
