Did you participate in the Calvert Cliffs License renewal and might know if we have the mentioned document below?
Laura

Hi Harriet.

I am not going to be able to make it to the audit. Maybe we can set up a time after the audit to have a conference call to discuss the project and potential impacts to listed species? I've been looking through our files here and don't have a record of a consultation on the relicensing of the existing units but it may have been done out of our Habitat
office. Does NRC have any record of it? As you probably know, sea
turtles and shortnose sturgeon occur in the Chesapeake Bay (although turtles would be less common in the Bay above the Potomac River).
Additionally, Atlantic sturgeon (which are a Candidate species) also occur in the Bay.

Thanks,

Julie
