Chris,

Some additional information on chemistry is provided at:

G:\FCSS\SPB\Chemical Data Bases

There is a a subfile on Pu polymer.

Regards, Dan

As promised. Feel free to share internally. After the first visit to Bethesda, we realized that asking for all the documentation on a specific area would be like drinking from a fire hose. So this time I'm trying to do most of the review in-office and send them a list of our questions/areas of concern prior to the visit for efficiency's sake. We'll have to see how this works.
