SK is working with DNRL to see how we can use their RAI database. He can give you the latest status of that work, but right now, their system won't work for us.

Hi Butch:

I was talking to George Wunder this morning and they are using the EPM system to show the status of each RAI. Next I consulted with Andy and he mentioned that the Environmental Branches could not use EPM to status our RAIs as it is not set up for the Environmental Review, only Safety. When you get a chance, please let's talk.

regards,

Paul
