QUESTION from Instrumention, Controls and Electrical Engineering 1 (ICE1)

01-1

Appendix 1AA of the FSAR states that conformance with Revision 1 of Regulatory Guide 1.152, “Criteria for Use of Computers in Safety Systems of Nuclear Power Plants,” is documented in the DCD. Conformance with Revision 2 of this Regulatory Guide for programmatic and/or operational aspects is also documented. The NRC staff reviewed the material within this section of the FSAR and could not identify the justification or explanation of how Revision 2 of Regulatory Guide 1.152 will be applied for the programmatic and/or operational aspects.

Therefore, please indicate where the programmatic and/or operational aspects of Regulatory Guide 1.152, Revision 2, are located in the Bellefonte Final Safety Analysis Report(FSAR).
