Atlanta, Georgia 30323

Dear Dr. Grace:

WATTS BAR NUCLEAR PLANT UNITS 1 AND 2 - CONTAINMENT PENETRATION PROTECTION - WBRD-50-390/82-07, WBRD-50-391/82-70 - SECOND SUPPLEMENTAL FINAL REPORT

The subject deficiency was initially reported to NRC-OIE Inspector R. V. Crlenjak on December 7, 1981 in accordance with 10 CFR 50.55(e) as NCR WBN EEB 8111. Our first interim report covering unit 1 was submitted on January 26, 1982. TVA has expanded this deficiency to cover unit 2. A subsequent interim report covering both units was submitted on July 30, 1982. Our final report was submitted on November 17, 1982. A supplemental final report was submitted June 21, 1983.

As discussed with Inspector A. Ignatonis on February 14, 1985, the completion date of February 1, 1985 for unit 2 could not be met because of unit 1 priorities. The rescheduled completion date for unit 2 is December 30, 1985. Please correct your records accordingly.

If you have any questions, please get in touch with R. H. Shell at FTS 858-2688.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
