RE: NRC License #21-00943-03

To Whom It May Concern:

We are notifying the Nuclear Regulatory Commission (NRC) in accordance with 10 CFR 35.14(b)(5) that we are adding an imaging room to our currently authorized nuclear medicine area. The room is for our NRC License Number 21-00943-03 at St. Joseph Mercy Hospital-Livingston, 620 Byron Road, Howell, MI 48843. This addition has been reviewed and approved by the Radiation Safety Committee of the St. Joseph Mercy Health System.

Attached are drawings of the room, which is connected to the currently authorized Nuclear Medicine work area. As described in our previous amendment submission for this facility, above the ceiling is an unoccupied roof; below the floor is a crawlspace used for servicing utilities. The access to this crawlspace is from outdoors and not anywhere in the Nuclear Medicine area.

If you have any questions or require additional information, please contact me.

Sincerely,

Ralph P. Lieto, MSE
Radiation Safety Office
