Subject: Telcon Summary - Telcon with TVA 8/4/2008

On August 4, 2008, NRC staff (Tanya Simms, Thinh Dinh, Robert Radlinski, Stephanie Coffin) participated in a telephone conference call with TVA representatives and observers (see below) regarding the staff's detailed review of the Bellefonte Units 3 and 4 COL application. The purpose of the call was to discuss requests for additional information (RAI) #315.

The discussion focused on the applicant's request for clarification of the penetration seals and smoke testing of the smoke dampers reviewed in FSAR chapter 9, Section 9.5.1.

At the conclusion of the call, staff informed TVA that the RAI would not be addressed by TVA. The question will be addressed by Westinghouse through the backfit process § 52.63.
