Subject: SUNSI REVIEW

George,

Just a heads up that we have to do the SUNSI review of the entire application - all parts. Right now we have PMs assigned to do the SUNSI review of certain chapters of the FSAR (part 2 of the COLA). Would you like me to coordinate the SUNSI review of the STP3 and 4 COLA? I could work with Bill Reckly on that to make sure I dont miss anything. Just let me know.

We were talking about NSIR taking the lead on the EP parts (offsite rad response plans - state and local) as well as agreements with the state and local orgs (part 5). DSER (Paul Kallan) will take hte ER (part 3).

That leaves:

part 1 (general financial info): I can do that - I have already started looking at it.

part 4 (TSs)

part 6 (site redress plan) - there is nothing there so no problem

part 7 (departures report)

part 8 (Safeguards/security plan) - we already know we wont release

part 9 (ITAAC).

the bulk of the SUNSI review is the FSAR and EPs so I will work with Bill on the rest.
