Dear Sir or Madam,

I need a way to use EPM to do a couple of things. First, I need to generate an eMail address list for all people who have a current OR future assignment regarding STP COLA review. Second, I need to generate an eMail list for all people who have a CURRENT (i.e, an active task open) assignment for review of the STP COLA. How can I accomplish these goals?? It is important that I get this information as soon as possible.

Thanks,

George
