Ravi,

Can we have the call at 10:00 Am on Tuesday? We have a call right after the status that runs up until 10:00AM.

Phil,
I would like to set up a conference call to discuss RAIs related to Dose Consequences for DBAs (Control room and offsite) and atmospheric dispersion factors used to calculate those doses (Table 2.3-321 of Bellefonte FSAR). I would like to propose the following times for the call :Tuesday May 5, 2006 right after our status call or later in the morning of Tuesday. Please provide your preference.
