SUBJECT: UNION IMAGING ASSOCIATES, PA, REQUEST FOR ADDITIONAL INFORMATION CONCERNING APPLICATION FOR AMENDMENT TO LICENSE, CONTROL NO. 142663

Dear Dr. Kessler:

This is in reference to your letter dated July 10, 2008 requesting to amend Nuclear Regulatory Commission License No. 29-30818-01. In order to continue our review, we need the following additional information:

1. The facility diagram that you sent for 445 Chestnut Street is blackened and I am unable to read it. Please send a new, clear diagram with the positions of equipment labeled on it.
2. Your letter refers to a move from 415 Chestnut Street. Is this intended to be 418 Chestnut Street?
3. The 418 Chestnut Street and 441 Chestnut Street addresses are listed as locations of use on your current license. Before releasing them for unrestricted use, please do a decommissioning survey on each and send the results to NRC. Do not release them before receiving an amended license.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material;** then **Regulations, Guidance, and Communications.** You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 8:00 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 142663. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5102.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we will assume that you do not wish to pursue your application.

Sincerely,
