**Subject:** request for phone call to discuss 2.5 meeting

Phil,

We would like to arrange a phone call sometime tomorrow or Thursday to discuss the logistics for a meeting to discuss section 2.5. Below is a
a list including what we want to observe at the Bellefonte site during the visit:

1. Slope stability at and near the site.

2. Some of the borings logs, for example, B -1051.

3. Lineaments (# 4 and 12) related studies including any surface indication (or no indication at all)

4. Sub-vertical features in a soil exposure at Gadsden. The features are mentioned on p. 2.5-12 of the FSAR (section 2.5.1.1.3.2).

The tentative date for the visit will be the week of Oct 27, 2008. It will takes 2-3 days at the site.

Please let me know the time and date that works for you to support the call.
