QUESTION From Health Physics Branch

11.04-***

FSAR Section 11.4.6, STD COL 11.4-1 includes a commitment to the use of the Process Control Program (PCP) as an operational program document, based on draft NEI Template 07-10. The NEI template presents the functional elements of a PCP, which, if met, would demonstrate compliance with Part 50.34a and 50.36a. Accordingly, please update FSAR Section 11.4.6, STD COL 11.4-1 to reference the final PCP, consistent with Regulatory Guide 1.206 and Section 11.4 of the Standard Review Plan (NUREG-0800). Relatedly, please update all internal citations to the final PCP in applicable FSAR subsections and references.
