Steven L. Hossler, M.D.
Radiation Safety Officer
Warsaw Health System LLC d/b/a
Kosciusko Community Hospital
2101 East Dubois Drive
Warsaw, IN 46580-3288

Dear Dr. Hossler:

Enclosed is Amendment No. 5 to your NRC Material License No. 13-32129-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note, we have not authorized Dr. Richard P. Stephens, Jr., as an authorized user at this time because he is not listed as an authorized user on QHG of Indiana's NRC license 13-01535-01. You will need to choose a different pathway to add Dr. Richard P. Stephens, Jr. as an authorized user. Please see the licensing guidance for completing the training and experience forms on our website at http://www.nrc.gov/materials/miau/med-use-toolkit/licensing-guidance-form313a.pdf. If you wish to pursue this matter, please resubmit your request as additional information to mail control 317327.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html (the Public Electronic Reading Room).

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

William P. Reichhold
Materials Licensing Branch
