Subject: Uranium Recovery GEIS

Dear Mr. Park,

I respectfully submit that there is no one-size-fits-all approach to uranium mining across the country. That is why I urge the NRC to follow the National Environmental Policy Act and conduct individual environmental impact statements for all proposed in situ uranium mines. A GEIS will not spotlight potential problems in any of the proposed areas and could lead to devastating impacts on the environment, ecosystems and communities in the area.

Thank you kindly for your consideration and prompt action.
