Dear Mr. DeLaBarre:

Enclosed is an application (XSNM3568) recently received by the U.S. Nuclear Regulatory Commission, dated November 25, 2008, from AREVA NP Inc., for the export of low-enriched uranium to Japan for use as reload fuel in the Ohi Units 1, 2, 3 and/or 4 and/or Takahama Units 3 and/or 4 nuclear power reactors.

Assurances from Japan that the material will be subject to all of the terms and conditions of an agreement for cooperation are required. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that the material is of Namibian and Australian origin, and enriched in the United Kingdom. It, thus, has Australian and EURATOM obligations.

Sincerely,

/RA/
