Subject: RE: Harris Sufficiency Review

Three areas:
Characterization of the tax revenue situation in Chapter 2 (and as permeates throughout the impact sections)
Transportation impacts (4.4.1) Characterization of planned generation additions (8.3)

Call for more specific discussion.

Thanks,
Dave

David, I have been on travel so much this past month that I have had little time to look at the Harris ER. Consequently, I will have limited opportunity to review your questions with any experience. Are there any specific sections I should prioritize where you feel the applicant has extraordinary needs under the ESRP? If so, please advise me as to which sections those are so I can read them first.
