Subject: Re: Collaboration on Harris COL Environmental Report Acceptance Review

DP:

You do not have Need For Power on your list, and I need to be added to the Alternatives review, since alternative sites involve soico work.

All,

The attached files have the latest contact information for all of the NRC Technical Reviewers and the PNNL Team members by subject area. You (either NRC Tech Reviewers or PNNL Team members) can contact your counterpart to discuss issues or items from your reviews as we progress through the acceptance review over the next couple of weeks.

Do keep your respective PM/Team Leader informed of any important issues, especially ones that you believe are critical for the acceptance review. We can/will contact the applicant for any items that need to be addressed now.

For NRC folks, if I am not available, please contact Bruce Olson.

Thanks,
Don
