SUBJECT: THANK YOU NOTE FOR CONTRIBUTION TO THE NRC WORKSHOP ON VENDOR OVERSIGHT FOR NEW REACTOR CONSTRUCTION

Dear Mr. Fisicaro:

We had outstanding presentations and participation from industry representatives during the Workshop on Vendor Oversight for New Reactor Construction on December 10 and 11, 2008. Your contributions in coordinating these activities, identifying interested participants, and finding expert speakers was greatly appreciated by Glenn M. Tracy and us. The knowledgeable panelists excelled in engaging the audience in lively and informative discussions of the complex issues. With your assistance, the workshop also succeeded in engaging a very large audience of vendors, licensees, and interested parties in an open discussion of the challenges that lie ahead in the nuclear industry. Thanks for taking time out of your busy schedule to support us in this important public forum.

Sincerely,

/RA/

Juan Peralta, Chief
Quality and Vendor Branch 1
Division of Construction Inspection
& Operational Programs
Office of New Reactors
