Subject: Indian Point SFP and refueling cavity

The spent fuel pool is in UFSAR sect. 1.2. For unit 3, it is plant drawing 9321-F-25143. Unit 2 removed the drawing (9321-F-2514) from the UFSAR for security reasons.
The refueling cavity is shown on the containment drawings, UFSAR sect 5.1 for both units. For unit 3 the drawings are 9321-F-25013, 25023, and 25073. For Unit 2 they are 2501, 2502, and 2507.
I have paper copies (in a 3 ring binder, not very good) if you wish to look at those.
