Subject: We don't need any more Nuclear Power

Sirs:

I don't think we ever need build more Nuclear Power plants until we come up with a way to render the fuel rods harmless.

Put another way, let me pose this question: Are you willing to have a Nuclear Power Plant next door to your house, with just a four foot chain link fense for security and both new and spent fuel rods stored outside uncovered? If your answer is no, then why build one anywhere? We can do it with clean Coal, Wind, and Solar!

Thanks. Conrad Wolz, Trophy Club Texas
