Subject: Comanche Peak Nuclear Power Plant

I would like to see the lake at the Comanche Peak Nuclear Power Plant reopened for fishing.
The possiblilty of a special license seems like a logical way to go to me.
Restricted to Texas residences with concealed handgun licenses may be an option, since they have already passed a background check.
Also, advance reservations, limited number of boats on the lake at a time, no more than 3 people per boat, etc.
Fingerprints, photo on file, etc. Fishing only. No skiing or jet skis. Daylight hours only. I would like to allow tube floats and oar prepelled watercraft. You could even set it up with a limited season only open during certain months.
It just seems a shame to me that this lake is closed to the taxpayers of Texas and the honest law abiding fishermen (and women).
Thank you for your consideration.
Best regards,
Gary Drechsel
