Subject: another disaster?

Dear Sir/Madam,

I am strongly against the construction of another nuclear power plant in Monroe County or anywhere else for that matter. I belong to the River Raisin Institute and am very concerned about the environment. The pollution resulting from a nuclear power plant is unacceptable and is dangerous to the health of too many citizens. Obviously the cost of a nuclear power plant is exorbitant and dificult to imagine this investment at this time in our history when our country is in such financial straits. It would be much better to invest in solar and wind energy which in the long run would be cheaper and safer.

Sincerely, Ann C. Nett, citizen of the United States and of the world.
