Sister Florence Mallon, S.C

March 12, 2009

Chief
Rulemaking, Directives & Editing Branch

I write to support Riverkeeper's environmental impact concerns and opposition to the license renewal of Indian Point:

the slaughter of billions of fish eggs and larvae;
the killing of shortnose & Atlantic sturgeon;
the continuing leaks of radioactive water into the groundwater & Hudson R.;
the long term storage of tons of toxic waste

Thank you for your attention to this request and hopefully, the decision to deny the license renewal.

Sister Florence Mallon S.C.
