Subject: NRC's Pre-hearing conference
Attachments: FW: Environmental Staff Support for Prehearing Conference; FW: Calvert - Board Order (Public); Contentions for Calvert Cliffs

Kathy,
Attached are emails regarding an upcoming pre-hearing conference with our ASLB (Atomic Safety and Licensing Board). The conference will be next week. The email titled "Contentions for Calvert Cliffs" contains the contentions the NRC received from interveners and the NRC's responses to those contentions. The email titled "Calvert - Board Order" is just to announce the pre-hearing conference location and time. It is here at the NRC in Room 3-B45, Two White Flint North building, Third Floor on Feb 20th beginning at 10am. I am not sure if you are available to make it, but any member of the public is welcome to attend (since you are a cooperating agency you might be interested to observe in that capacity). The NRC legal staff will be arguing the admissibility of the contentions based on our regulations in 10 CFR 2.309. The NRC legal staff and the interveners are the only people that are allowed to interact with the board at this stage. You are more than welcome to observe with the rest of the environmental staff. Unfortunately as of now the only way to observe is by attending here at the NRC. The board has not announce that they will webcast the meeting or allow telecommunications. Few weeks after this conference the board will make a decision (in writing) to admit the contentions or not. If admitted, the staff will look into the issues (from a technical viewpoint) and address the contention(s) in the EIS. The third email, "Environmental Staff Support for Pre-hearing Conferences" contains questions the board has on the contentions and also contains timeframes for testimony and rebuttals for the participants. If you have questions please let me know. Also please let me know if you think you will be able to attend.
Thanks
