Dear Mr. Mas,

Thank you for your response dated April 7, 2009. Please provide the following additional information to complete this action:

1. With regard to the Nickel-63 source, please confirm that this is the source listed as Item Q on your license. Additionally, please confirm the location of storage of this source.

2. Indicate whether any other sealed sources were collected from the research areas (e.g., from the counting room in Immunochemistry) and placed into storage at the hospital.

3. With regard to the animal care facilities in the East Building, please provide swipe results or confirm that radioactive animals were not housed in these facilities.
