Subject: amendment request 143644

UMDNJ
license #: 29-02957-14
docket #: 030-13634
Mail Control Number: 143644

Dear Mr. Lanka:

I wanted to follow up our phone conversation this morning with an email to make sure it is clear what additional information I need to process your license amendment request.

- Provide the most recent copy of the leak test of the source for the irradiator to be moved.
- Provide the name and NRC or Agreement State license number of the authorized service provider UMDNJ will be using to prepare and move the irradiator.
- Confirm that no other sources, that in total would exceed the Increased Controls Table 1 limits, will be co-located with the irradiator at its new location.
- The reply to this request, and all future correspondence with the NRC, should be signed by a representative of management at UMDNJ.

In order to perform a timely review of your license amendment request, your response, by letter or fax to 610-337-5269, must be received by this office within 30 days of the date of this email. An email response is not acceptable. If a response is not received within the stated time frame the license amendment request will be voided. Be sure to include the mail control number, 143644, that identifies this amendment request, in your response. This will ensure that your response gets directed to me. Please contact me at 610-337-5236 if you have any questions.

Thank you.
