LISLE, ILLINOIS 60532-4352

FEB 23 2009

Yinghui Zhang, Ph.D.
Radiation Safety Officer
Evansville Cancer Center/
Vantage Oncology
700 North Burkhardt Road
Evansville, IN 47715

Dear Dr. Zhang:

Enclosed is Amendment No. 24 to your NRC Material License No. 13-25945-01 in accordance with your request. Please note that the major changes made to your license are printed in **bold** font.

Please note that Dane Thannoo, Ph.D. was not added to your license as an Authorized Medical Physicist (AMP). His American Board of Radiology (ABR) certification as well as other training and experience information submitted was not sufficient enough to show that he meets 10 CFR 35.51 requirements. Specifically, the ABR certification was not recognized because it does not show that he is AU Eligible. The training and experience information was incomplete. If you wish to add Dr. Thannoo to your license as an AMP at a later date, please review the enclosed 10 CFR 35.51 and the NRC Form 313A(AMP). I have marked the areas on the NRC form that need to be completed. I have also enclosed the NRC list of Specialty Board(s) Certification Recognized by NRC Under 10 CFR Part 35 for your review.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf and the link for frequently asked questions regarding protection of security related sensitive information may be located at: http://www.nrc.gov/reading-rm/sensitive-info/faq.html. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at http://www.nrc.gov/reading-rm/adams.html (the Public Electronic Reading Room).

**The enclosed document contains sensitive security-related information.
When separated from this cover letter this letter is uncontrolled.**

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

Toye L. Simmons
Materials Licensing Branch
