Subject: Westinghouse Financial Assurance

Gentlemen, regarding the Westinghouse financial assurance, if you have confirmed with the State of Pennsylvania (State) that it has received satisfactory financial assurance for the two sites that have recently been turned over to the State, then the letters of credit that the NRC holds for these two sites may be cancelled and returned following the procedures in MD 8.12. We, at HQ, are working to establish satisfactory financial assurance for the Columbia and Hematite sites. Westinghouse has committed in writing to establish this as it provides updated Decommissioning Cost Estimates for the Columbia and Hematite sites. Please let me know when you have completed this task. Finally, please send the letters of credit for Columbia and Hematite to HQ. If possible, an advanced PDF version would be helpful. If you have any questions, just let me know.

Best Regards,
Kenneth M. Kline
