On July 1, 2009, AREVA (Clark and Temus) and NRC (Staab, Tang, and Tarantino) conducted a phone call concerning three Requests for Additional Information to support the review of the Model No. BRR package. AREVA requested clarification concerning RAIs 1-3, 1-4, and 2-11. Clarification was provided and the applicant indicated they were confident concerning a resolution. For example, the applicant indicated they would provide a clear discussion concerning the equivalency of ASTM and ASME materials.
