Rob,

Attached please find the subject request for additional information (RAI). A draft of the RAI was provided to you on March 10, 2009. No conference call was requested to discuss this RAI. The schedule we have established for review of your application assumes technically correct and complete responses within 30 days of receipt of RAIs. For any RAIs that cannot be answered within 30 days, it is expected that a date for receipt of this information will be provided to the staff within the 30 day period so that the staff can assess how this information will impact the published schedule.

John Rycyna, PE

Calvert Cliffs Unit 3
UniStar
Docket No. 52-016
SRP Section: 12.01 - Assuring that Occupational Radiation Exposures Are as Low as is Reasonably Achievable
Application Section: 12.1, Ensuring that Occupational Radiation Exposures Are as Low as is Reasonably Achievable

QUESTIONS for Health Physics Branch (CHPB)

12.01-2

In FSAR section 12.1.3, Operational Considerations, the applicant addresses EPR COL Item 12.1-1 by referencing NEI 07-08, "Generic FSAR Template Guidance for Ensuring that Occupational Radiation Exposures Are As Low As Is Reasonably Achievable (ALARA)." However, NEI 07-08 alone is not enough to fully describe all elements of an ALARA program. NEI 07-03 supplements the ALARA program description in NEI 07-08 with information describing the roles and responsibilities of management and staff as well as training requirements.

Modify FSAR Section 12.1.3, Operational Considerations, such that it incorporates by reference NEI 07-03, "Generic FSAR Template Guidance for a Radiation Protection Program Description" in addition to NEI 07-08, or justify an alternative.
