TOWN OF PEAK

PO BOX 33
PEAK SC 29122

MAYOR LEWIS SHEALY 945-7565

Resolution in Support of Nuclear Energy for South Carolina

WHEREAS, nuclear power has proved to be a reliable and low-cost source of energy, providing base load electricity 24 hours-a-day, seven days-a-week; and

WHEREAS, nuclear power has proven to be a safe energy alternative, with 52 percent of the energy generated in our state coming from nuclear power plants; and

WHEREAS, nuclear power is clean and sustainable, accounting for 71 percent of the nation's clean-air electricity generation; and

WHEREAS, nuclear power will allow us to lessen our reliance on other forms of generation, resulting in significant reductions in CO2 levels in our state; and

WHEREAS, nuclear power promotes economic development by providing a reliable source of energy, as well as through the creation of much needed jobs and tax revenues; and

NOW, THEREFORE, BE IT RESOLVED, by Mayor Lewis Shealy, that the Town of Peak supports the development of nuclear energy facilities within the State of South Carolina.

Adopted by THE TOWN OF PEAK. January 22, 2009

Lewis Shealy 1-24-09
