Subject: Oswego, NY Nuclear Application Comment

Greetings,

According to the Federal Register: May 21, 2009 (Volume 74, Number 97), Page 23895-23897, there is a proposal for a new nuclear power plant near Oswego, NY. I gather that the NRC is gathering public input for an environmental review. I live in Syracuse, NY and my comment is this: the current nuclear power plants provide an enormous environmental hazard to our locality by creating a risk of nuclear disaster. I believe a new nuclear power plant would do the same, and do not think that the benefits of a new plant outweigh this environmental cost. Therefore, I am opposed to this new plant on these environmental grounds.

Please let me know if my comments should be clarified.

Thank you,
Nick Cavanaugh
